ABISHEK S GHOSH

B.Tech. - Computer Science & Engineering

Ph: +91-6238442265

Email: abisheksghosh.b23cs1103@mbcet.ac.in

Thiruvananthapuram, Kerala, India - 695014

EDUCATION

Mar Baselios College of Engineering and Technology (Autonomous) 2023 - 2027

B.Tech. - Computer Science & Engineering | CGPA: **8.29** / **10**

Christ Nagar Higher Secondary School, Kowdiar, Thiruvananthapuram 2023

12th | CISCE | Percentage: **91** / **100**

Christ Nagar Higher Secondary School, Kowdiar, Thiruvananthapuram 2021

10th | CISCE | Percentage: **96.60** / **100**

INTERNSHIPS

ICT Academy of Kerala | IT / Computers - Software 09 Dec, 2024 - 24 Jan, 2025

Full Stack Developer Intern

Key Skills: Full Stack Development | Node.js | MongoDB | React.js

Completed a one-month Full Stack Development (MERN) internship, gaining hands-on experience in building web applications using MongoDB, Express.js, React.js, and Node.js. Strengthened my understanding of REST APIs, database integration, and modern web development practices.

PROJECTS

GSTMate – AI-Powered GST Pre-Filing Compliance Assistant 06 Jul, 2026 - 15 Oct, 2026

Mentor: Deepthi K Moorthy | **Team Size:** 4

Key Skills: Python | AI | ML | LLM | React.js | FASTAPI | SQL | RAG

Project Link: https://github.com/AjentP-BluddySweit/GSTLite

Developing GSTMate, an AI-powered multi-agent system designed to simplify GST compliance and return preparation for Micro, Small and Medium Enterprises (MSMEs). The system processes sales and purchase invoices in formats such as PDFs, scanned images, and spreadsheets, using OCR and AI-based document understanding to extract key invoice details. Extracted data is validated and processed through a deterministic GST rule engine for GST, CGST/SGST/IGST, and potential Input Tax Credit (ITC) calculations. The project also includes invoice reconciliation, duplicate and mismatch detection, and a GST Compliance Intelligence Engine that generates explainable compliance risk scores and alerts. An AI-based advisory module explains GST-related results, while the system prepares GSTR-1 and GSTR-3B draft data for user review.

SignLearn — Indian Sign Language Learning System 06 Jan, 2026 - 23 Apr, 2026

Team Size: 4

Key Skills: Python | Computer Vision | OpenCV | MediaPipe | TensorFlow | Machine Learning

Project Link: https://github.com/AjentP-BluddySweit/SignLearn

An interactive learning platform that helps users learn and practice Indian Sign Language (ISL) through real-time gesture recognition and instant feedback.

The application extracts 21 hand landmarks using MediaPipe Hands, preprocesses the landmark coordinates, and classifies the gesture using a trained Artificial Neural Network (ANN) model developed with TensorFlow/Keras. Users receive live predictions, confidence scores, corrective feedback, and progress tracking while practicing ISL alphabets and numbers.

The system is built with a React.js frontend for an interactive learning interface and a Flask backend that performs gesture recognition and communicates with the trained machine learning model.

ASSESSMENTS / CERTIFICATIONS

NPTEL Online Certification - Deep Learning IIT Ropar

Provider: IIT Madras

Aggregate: 65 / 100

Subjects: Deep Learning (65 / 100)

Course Completion Certification - Python Fundamentals

Provider: Infosys Springboard

Key Skills: Python

Course Completion Certification - Java Programming 2022

Provider: Infosys Springboard

Key Skills: Java

Introduction to OpenAI GPT Models

Provider: Infosys Springboard

Key Skills: OpenAI

AI-first Software Engineering

Provider: Infosys Springboard

Key Skills: Software Engineering

POSITIONS OF RESPONSIBILITY

DaVinci's Collective Lead - Tribe (Catalyst IEDC MBCET)

Leading the creative wing of Catalyst IEDC by overseeing design initiatives, coordinating the design team, and ensuring consistent branding across events and campaigns. I collaborate with different teams to transform ideas into impactful visual experiences.

SEMINARS / TRAININGS / WORKSHOPS

5 Day_ Hands-on Workshop on Advanced Python Programming

01 Jul, 2024 - 06 Jul, 2024

Institute Name: Department of Computer Science and Engineering, Mar Baselios College of Engineering and Technology

Key Skills: python fast api mongodb

Successfully completed a 5-day hands-on workshop on Advanced Python Programming, gaining practical experience in Python programming, problem-solving, and core programming concepts through interactive sessions and coding exercises.

PERSONAL DETAILS

Gender: Male

Marital Status: Single

Current Address: 16G, Heera Heritage, Kochar Road, Jagathy, Thiruvananthapuram, Kerala, India - 695014

Emails: abisheksghosh.b23cs1103@mbcet.ac.in , hellomeghosh@gmail.com

Date of Birth: 30 Dec, 2005

Known Languages: English, Hindi, Malayalam

Phone Numbers: +91-6238442265, +91-9497421727
